

Lee Khai Fung

Melbourne, Victoria | +61422655024 | leekhaifung@gmail.com | [Linkedin](#) | [Portfolio](#)

Education

The University of Melbourne: *Masters of IT*

Jan 2024 – Dec 2025

- WAM: 79.2%, Specialized in Cybersecurity
- Relevant Coursework: Database Systems, Security & Software Testing, Machine Learning Security, High Integrity Systems Engineering, Cryptography, Web Security

The University of Melbourne: *Bachelor of Commerce*

Jan 2021 – Dec 2023

- WAM: 81.7%; Double Majored in Economics and Finance

Technical Skills

Programming Languages: Java, JavaScript, TypeScript, Python, SQL, C#, CSS, PHP, Swift, Bash, KQL

Frameworks & Tools: Git, Docker, Excel, React, React Native, MySQL, PostgreSQL, AWS, Flask, Spring Boot, Agile, ELK, Sentinel, Trend Micro Vision One, Linux, WordPress, Claude, ChatGPT

Experience

Centelon Solutions: *Cybersecurity Intern*

Aug 2026 – Present

- Triaged 200+ security alerts per week in Microsoft Sentinel and Trend Micro Vision One, validating threat-intel matches against AWS VPC Flow logs to analyse suspicious IPs.
- Wrote KQL queries to detect port scanning, inspect network traffic, and analyse failed sign-in attempts.
- Prepared incident response runbooks aligned to the NIST incident response lifecycle.

Braver Ventures: *Full Stack Developer Intern*

Jul 2025 – Nov 2025

- Designed and deployed a full-stack website using React, Spring Boot, and AWS to serve as a mental health tool for clinicians to assign personalized exercises and clients to complete and journal reflections.
- Led development as Tech Lead in a team of 5 on a project basis, responsible for resolving merge conflicts, troubleshooting technical issues, and presenting live product demonstration to the client.

Projects

Dishcision | *Java, JavaScript, SQL*

Mar 2026 - Present

- Designed and built a full-stack mobile application using React Native + Expo, Spring Boot, and PostgreSQL serving as a recipe suggestion tool based on pantry match.
- Architected a canonical ingredient matching engine with alias resolution and unit conversion across weight/volume/count groups.

Mini-SIEM | *Elastic Stack (Logstash, Elasticsearch, Kibana), Bash, Docker*

Jan 2026 – Apr 2026

- Deployed a self-hosted ELK stack in Docker, collecting and parsing logs from various log sources to display relevant security metrics on a professional security dashboard in Kibana.
- Parsed different log formats by adding grok patterns and conditional logic in Logstash.

Vulnerability Reproduction - WordPress | *Docker, PHP, Apache*

Oct 2025

- Identified the root cause in a WordPress plugin's unescaped user input handling, exploited the vulnerability via a crafted shortcode payload, and implemented a fix by sanitizing all attributes in the shortcode entry point.

Leadership

Malaysians of Melbourne University: *Assistant Sponsorship Director*

Sep 2022 – Sep 2023

- Secured and maintained partnerships with 70+ FnB sponsors and 11 corporate sponsors (such as Creador and OSK Property), resulting in monetary contributions over \$5000 and exposure to 1000+ members.

Malaysian Students' Council of Australia Victoria: *Vice-Treasurer*

Jun 2022 – Dec 2022

- Served as treasurer for Colours of Malaysia, MASCA Vic's flagship cultural event; created comprehensive budgets across all departments and managed expenses to ensure profitability.
